1.0 Roles and Responsibilities

The responsibility for the implementation of this policy and provision rests with the Principal. On an operational basis, the management, responsibility and evaluation of this policy will be undertaken by the **Assistant Principal**.

2.0 Suggested Audience

All Education Advisory Board and staff. As part of their academy induction programme or professional development, all staff will participate in training which will enable them to competently use the principles and procedures defined in this policy.

3.0 Related policies

This policy is part of a suite of policies which should also be referred to:

- Off-site and Educational Visits Guide
- Health and Safety Policy
- First Aid policy

4.0 Academy Mission Statement

Setting standards for success

5.0 Aims

- 5.1 This academy is a member of the Delta Academies Trust (DAT). It will use the resources and expertise of the DAT and work closely with other DAT academies to fully implement this policy, reflecting best practice. The Education Advisory Board and staff of this academy wish to ensure that children and young people with medical needs receive proper care and support at all times. The Principal will accept responsibility in principle for members of academy staff giving or supervising children taking prescribed medication when they are on site, or when taking part in bona fide activities off-site, where those members of staff have volunteered to do so.
- 5.2 The guidance in this policy is based on the Department for Education (DfE) guidance 'Supporting pupils with Medical Needs' as well as current guidance from the DfE website. All staff should be at least aware, if not familiar with this guidance.
- 5.3 All staff should be aware also of the wider context of the extension of the Disability and Discrimination Act 1995 to include educational settings, as well as the good practice guide produced by earlier Departments for Education (DfE) entitled 'Health and Safety of Pupils on Educational Visits'(DfEE,1998).

6.0 Procedures for the administration of medication

- 6.1 While all staff have a duty to take reasonable care for the health and safety of pupils in the academy (including the oversight and management of pupils' care plan/care package which must be up-to-date and received on time) there is no contractual obligation for staff to administer medication. Where staff do agree to participate in this duty, it should be recognised that these duties are a voluntary action.
- 6.2 Provided staff act in accordance with the academy's policies and procedures they will normally be fully covered by the academy's (or EAB's) public liability insurance. These procedures make it clear that only authorised and appropriately trained staff can administer medication to learners or supervise the self-administration of medicine. In general, the consequences of not taking action are likely to be more serious than those of trying to assist in an emergency.
- 6.3 Medication will only be accepted in the academy if a doctor has prescribed it. Parents and carers must inform the academy Medical/First Aid Officer, Special Educational Needs Coordinator (SENCo) and Head of Year/Class Teacher if their son or daughter has been prescribed a controlled medication e.g. Methylphenidate (Ritalin, Equasym). Controlled drugs are subject to the prescription requirements of Drug Regulations. The prescribing doctor is responsible for informing the patient when a drug belongs to this group. They are most unlikely to be prescribed to children or young people at the academy except Methylphenidate (e.g. Ritalin, Equasym).
- 6.4 It is expected that parents/carers will normally administer medication to their children at home. Medication will not be accepted in the academy without complete written and signed instructions from parents/carers, including written medical authority if the medicine needs to be altered (e.g. crushing of tablets).
- 6.5 Only reasonable quantities of medication should be supplied to the academy by a responsible person, normally a parent or carer, (no more than one (1) month's supply) and recorded in the academy's Medication Administration Records File. It is the responsibility of parents/carers to collect and dispose of any medicines held in the academy at the end of each term.
- 6.6 Each item of medication must be delivered in its original container and handed directly to the nominated member of staff authorised by the lead first aider or medical manager
- 6.7 Each item of medication must be clearly labelled with with a Pharmacist's label including:

Child's name
Name of medication
Dosage
Frequency of dosage
Date of dispensing

Storage requirements (if important)
Expiry date (if available)

- 6.8 The academy will not accept items of medication, which are in unlabelled containers or prescribed to another person.
- 6.9 Unless otherwise indicated, all medication to be administered in the academy will be kept in a designated clearly identified locked cupboard in the first aid room.
- 6.10 The academy may provide parent/carers with details of when medication has or has not been administered to their child.
- 6.11 Where it is appropriate to do so, pupils will be encouraged to administer their own medication under staff supervision. For safety reasons pupils are not allowed to carry medication, with the exception of inhalers and EpiPens. The academy reserves the right to insist that these items are also handed in, if the pupil is not believed to be responsible enough to keep them on their person. All medicines must be handed to the head first aider or medical manager.
- 6.12 It is the responsibility of parents/carers to notify the academy if there is a change in medication, a change in dosage requirements, or the discontinuation of the pupil's need for medication.
- 6.13 Staff who volunteer to assist in the administration of medication will receive appropriate training/guidance through arrangements made with the School Nurse Service or equivalent service.
- 6.14 To ensure that as far as possible, all pupils have access to all activities and areas of academy life, a thorough risk assessment will be undertaken to ensure the safety of all pupils and staff. No decision about a pupil with medical needs attending/not attending an academy trip will be taken without prior consultation with the parents/carers.

7.0 Residential trips and visits off site

- 7.1 Sufficient essential medicines and appropriate Health Care Plans will be taken and controlled by the member of staff supervising the trip or the head first aider.
- 7.2 If it is felt that additional supervision is required during any activities e.g. Swimming, the academy/setting may request the assistance of the parent/guardian.

8.0 Health Care Plan

Where appropriate, a personal Health Care Plan will be drawn up in consultation with the academy and off-site centre, parents/carers and health professionals. The Health Care Plan will outline the child's needs and the level of support required. Health Care Plans will be reviewed annually.

9.0 Intimate or Invasive Treatment

This will only take place at the discretion of the Principal or the academy's Education Advisory Board, with written permission from the parents/carers and only under exceptional circumstances. Two adults of the same gender as the pupil must be present for the administration of such treatment. Cases will be agreed and reviewed on an individual basis. A care plan will be required. All treatment will be recorded.

Vaccinations which come under the heading of Intimate or Invasive Treatment will be undertaken by the Immunisation Team with written permission from the parents/carers.

10.0 Emergency procedures

The Principal will ensure that all staff are aware of the academy's planned emergency procedures in the event of medical needs.

11.0 Monitoring and Review

The Assistant Principal will review this policy annually and assess its implementation and effectiveness and report to the Education Advisory Board on this. The policy will be promoted and implemented throughout the academy.

12.0 Approval by the Education Advisory Board and Review Date

This policy has been formally approved and adopted by the Education Advisory Board at a formally convened meeting

Note on appendices

Appendix 1

This form ensures that the academy has received the correct information from parents/carers and is able to monitor and correctly support the use of medication in the academy. If a pupil requires several items of medication in the academy, appropriate details should be provided on this form.

Appendix 2

This form provides details of the staff training record.

Appendix 3

This form is an example of a pupil's individual medication administration record.

Appendix 4

This form informs parents/carers, when a pupil has not received the requested medication.

Appendix 1: Medical Consent Form Serlby Park Academy

Parental Agreement for Academy to Administer Medicine

The Academy will not give your child medicine unless you complete and sign this form, and the school or setting has a policy that staff can administer medicine

Name of Academy

Name of Child:

Date of Birth:

Group/Class/Form:

Medical condition/illness
(optional):

Medicine

Name/Type of Medicine (as described on the container):

Date dispensed:

Appendix 2: Staff Training Form for Medications

Serlby Park Academy

Because of their medical condition, some pupils may require medication to be administered in the academy on a regular basis.

Named staff are contracted to perform this procedure as specified in their job description and have agreed to be trained.

The training given by PCT staff will be monitored termly by the academy Nurse and reviewed and updated annually or as required.

Nature of Procedure:

.....

Name of learning support staff trained and willing to perform procedure:	Statement of learning support staff: I feel competent to perform the procedure detailed above.	Statement of trainer: On the day assessed this individual was competent to carry out the procedure named above, and fulfilled the standard of competence described for the procedure.
Print Name	Signature and Date	Signature and Date

To be retained by trainer and copied to learning support staff

Appendix 3: Medication Administration Record Serlby Park Academy

Pupil's Name:

Form/Class:

Medication:

Time to be given:
(check prescribing label)

Date cancelled:

Controlled medication e.g. Ritalin received:
(Give date(s) and number of tablets in table below)

How medication was altered (if applicable):
(e.g. crushing tablets, diluting)

Review date:

Medication Given	Date	Time	Staff Signature	Print Your Name	Medication unable to be administered (Y/N)	Reason e.g. pupil refusal	Action Taken e.g. phone/letter home
Examples Ritalin (1 tablet)	6.1.17	12.00					
Epilim (200mg/5ml)	12.1.17	12.30					

Note1: Controlled medication e.g. Ritalin must be measured or counted on receipt and recorded above.

Note 2: it is important that there is a minimum 4-6 hours gap between doses of paracetamol based medication. If unsure contact should always be made with parents before administering.
